

Staff Introductions

Mari Sawa
Executive
Director of English
Education

As a founding member of Earth8ight, I have always believed in the power of play in early childhood. The children bring fun and challenges, which have provided me with a chance to grow, so that I can strive to be the best educator that I can be for them.

Garry
Dumlao
English
Teacher

Having a passion not only to make the students knowledgeable but to touch their lives, leading to good moral character formation, motivates me to be their role model and inspiration.

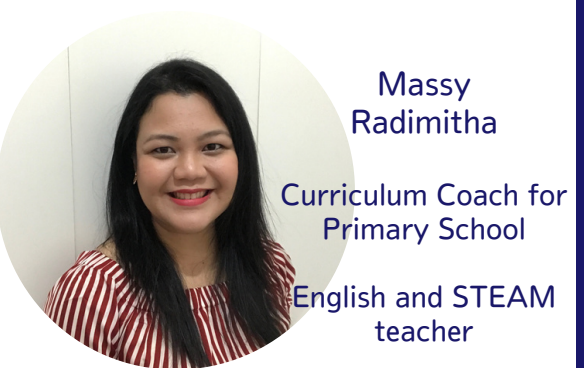

Natashya
Anwar
Director of STEAM
Education

I have been involved in education at international schools for over 10 years. I always find great joy in creating those "aha!" moments for children, where they say, "Oh, I see! That's how it is!"

Sola
Kobayashi
English
Teacher

I believe that teaching English to children is a wonderful thing. I am drawn to working at Earth8ight because I can have fun and teach English to children while playing with them.

Massy
Radimitha
Curriculum Coach for
Primary School
English and STEAM
teacher

As an educator, I feel deeply honored to support children in their growth and helping them realize their dreams through learning, experiences, and play.

Ria
Tjahjadi
English and STEAM
teacher

I find joy as I accompany children on their journey of learning, nurturing each individual's highest potential. I will continue to support them as they live their future as passionate global citizens.

Yuko Ogawa
Preschool
teacher
Drama
teacher

I enjoy spending time with children as I engage with them in play and storytelling. I am also eager to challenge them with expressive activities that expand their imagination.

Yuri Takano
Preschool
teacher
YOGA
instructor

After coming to Earth8ight, I have learned something new everyday. With my colleagues, I hope to continue to grow and evolve in my teaching career.

Fumie
Nakamura
Preschool
teacher
Licensed
Picture Book
Specialist

I became a preschool teacher because I felt that the environment at early childhood had a significant impact. I want to contribute in a way that allows children to walk through life with confidence.

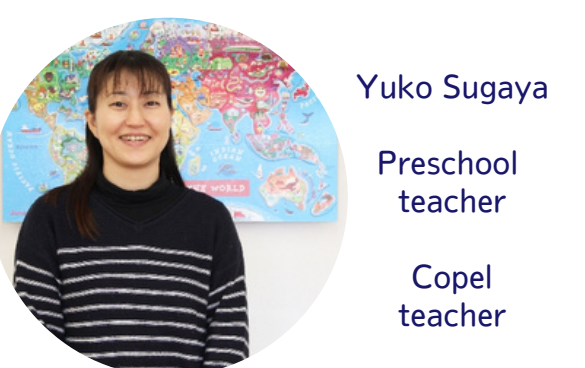

Eriko Shimizu
Preschool
teacher

I value setting up and preparing the environment for the children, so that they can come to school with excitement and joy from the moment they step into the classroom every day.

Remi Mizuuchi
Preschool
teacher
Montessori
teacher

I love seeing the sparkle in the eyes of the children when they are enjoying playing with their friends. I aspire to spend each day vibrantly with the children.

Yuko Sugaya
Preschool
teacher
Copel
teacher

I sent my son to Copel when he was younger. Watching my son's growth confirmed how wonderful Copel was for him. I wanted to spread this to more children, and I became a teacher for Copel.

Asahi
Morikawa
Sports
Instructor

I want to create an environment that expands the range of children's learning. Whether it ends in success or failure, trying is the key. Let's take on various challenges together!

Kana
Sadano
Copel
Teacher

"Everyone is different, and that's what makes everyone good." This is a poem by Misuzu Kaneko that I love. I keep these words in my heart and strive to understand each and every child.

Yuko
Mitsunobu
a.school
Teacher
System Engineer

I dedicate myself with passion for children's future by analyzing their developmental data and building a database for their customized curriculum.

Mai
Mitsumoto
Director of
Preschool
Education

I want to live a life that only I can lead with the children, parents, and colleagues of my school. Because of our customized childcare approach, we cherish each day, aligning every activity to the children's needs.

Norihide
Mitsumoto
CEO

I have prepared for 30 years to lead the company. Given that everyone has unique qualities and future goals, I support the growth of customized education at our school.

Takahiro
Sawa
Executive Director
of Earth8ight

Influenced by my great-grandfather, who was a principal, I continue to explore education in Japan and around the world. Like the ever-changing world, I strive to lead Earth8ight to be flexible in evolving for more innovation.
